

ERASING THE DEFACING

Erasing the Defacing is a neighborhood beautification campaign that seeks to empower owners, tenants and small business owners by providing a limited amount of free color-matched paints for areas plagued by tagging and graffiti.

This program will provide coupons for free paint that can be claimed at Mt. Pleasant Hardware, 249 Academy Avenue. Bring in a color sample and the good people at Mt. Pleasant hardware will color-match your free paint.

This pilot program is open to anyone in the Smith Hill and Mt. Pleasant neighborhoods and will begin immediately.

Studies have proven that one of the most effective ways to discourage taggers and graffiti artists from specific targets is to cover over the work immediately.

If you would like to receive a coupon for free paint, contact the Smith Hill CDC at 521-0159 or info@smithhillcdc.org. Someone will contact you shortly.

Erasing The Defacing is a result of a partnership between the Smith Hill Community Development Corporation, Mt. Pleasant Hardware, Pittsburg Paints and the City of Providence.
